STATION INFO

Engineering Technical Supervisor
Thursday, September 24, 2009 | 12:29 PM

September 24, 2009 -- WLS-TV, Chicago's #1 news station, is looking for an Engineering Technical Supervisor.

Responsibilities will be to ensure the timely and accurate production of the television station's on-air operations, as well as managing the output and traffic flow of the Master Control/Media Center. We need someone who is proficient in Master Control operations including, traffic systems (OTV) and station automation (Florical). Experience with satellite and microwave operations are required. The successful candidate will also supervise engineers and should be computer literate and comfortable working with commonly used software and hardware platforms such as Microsoft Office and Windows NT. Must be highly organized and used to working under tight deadlines while working on multiple overlapping projects. Five years major broadcast experience required. Although working primarily in the evenings, the successful candidate must be available to work weekends and overnights.

Candidates can apply on-line at www.disneycareers.com or by sending a cover letter and resume to Kal Hassan, Vice President and Director of Engineering, 190 North State Street, Chicago, IL 60601.

Please reference **Job ID: 208256** on all materials submitted. No phone calls please. Equal Opportunity Employer M/F/D/V. Reporting Location -- Chicago, IL
